RE: Notification of Intent to Drill
Wyoming Village Brine Field
Permit No. UIC3NY002
Brine Well No's 117, 128, 129, 147, 148, & 149

Dear Ms. Kraft:

Pursuant to the conditions of the captioned permit, Texas Brine New York, LLC wishes to notify you of its intention to initiate drilling operations on the above captioned brine wells in the Wyoming Village Brine Field. We intend to initiate drilling operations on or about June 11, 2018.

If you have any questions regarding the above, please feel free to contact me at 585-495-6228.

Regards,

Brian Stacy
Plant Manager

Re: Federal Water Infrastructure Loans

Dear Chair of the Board:

The United States Environmental Protection Agency (EPA) has announced the availability of a second round of funding for water infrastructure projects under the federal Water Infrastructure Finance and Innovation Act (WIFIA) program. I am writing to encourage you to submit a Letter of Interest by **July 31, 2018** to be eligible for a portion of the available \$5.5 billion in WIFIA loans.

The WIFIA program incentivizes states and municipalities to forge-public private partnerships to correct local infrastructure problems, create jobs, and provide safe water for our communities. WIFIA credit assistance can be used for a wide range of projects, including:

- Drinking water treatment and distribution projects
- Wastewater conveyance and treatment projects
- Enhanced energy efficacy projects at drinking water and wastewater facilities
- Desalination, aquifer recharge, alternative water supply, and water recycling projects
- Drought prevention, reduction, or mitigation projects

This year, priority will be given to projects that keep lead and other contaminants out of drinking water and update aging drinking water and wastewater infrastructure. WIFIA funding is limited to up to 49 percent of project costs and can be combined with private equity, revenue bonds, corporate debt, grants, and State Revolving Fund (SRF) loans. For more information about the program, eligibility, and application process, visit www.epa.gov/wifia or contact Alexandra LaMonte, NYSAC Research Analyst, at alamonte@nysac.org.

Sincerely,

Stephen J. Acquario
Executive Director
