Private Water Samples Collected	62	Regulated Facility Operations Inspections	78
Sewage Disposal Permits Issued	10	Notice of Hearing / Enforcement Proceeding Initiated	0
Public Water Samples Collected	98	Surface Water Beach Samples	11

Additional Areas of Interest:

*Rabies Post Exposure Treatment Shots were given to:

A Town of Covington resident was walking to their garage, when a cat came up to him and jumped on his leg. He was able to escape from the cat, and made it to his garage. He called the Wyoming County Animal control, which came out and caught the cat. The cat tested positive for rabies. The homeowner received post-exposure treatment as well as the Vet and Vet tech that prepped the cat without proper personal protection. The Vet and Vet tech only required a booster, as they had already received pre-exposure vaccination.

A bat in the Town of Perry also tested positive for rabies. It was found in the basement of a home where two people had slept the day or two earlier. They both received the post exposure shots.

A third individual received a post rabies vaccination booster shot after a bat landed on her face during the night while in bed. The bat escaped, and was not available for testing. Although a bat landing on person is a rare occurrence, it happened to this same woman in August eight years earlier. Since she received the post-exposure treatment at that time, she only needed a booster for this exposure.

For three weeks in August, this office, at the request of NYS DOH, sampled raw and finished water at Silver Lake and the Village of Perry's water supply for microcystin toxin from HAB, blue green algae bloom. The bloom was smaller this year as compared to last year. Varying levels of toxin were found in the raw water, but was not detected in the finished water after treatment.

Wyoming County Fair was held during the week of August 11th – 18th. There were no major incidents to report and it operated within the guidelines issued by this department as part of the WC Public Assembly Permit and Health Department issued Agricultural Fairgrounds Permit.

August 17th was our Seasonal Student Aide, Amelia Wright, last day of work. We thank Amelia for all the work she did this summer and wish her well as she returns to college.

During the month of August one Boil Water Orders was issued by this department:

- Recreational Campground, (T) Java, for inadequate disinfection of the potable water supply.
