

Inspection Schedule- Residential structures

Name _____ Date _____

Location _____ Permit # _____

- A reasonable means of ingress must be provided to each structure and floor level.
- All required inspections must be called in 24 hours in advance by the owner or the contractor (585-786-8820).
- The following inspections are *mandatory*:
 1. Footer – when the excavation is complete, forms are in place and ready for pouring concrete *but before* any concrete is poured.
 - a. Poured foundation walls – when forms and reinforcements are in place but *before* any concrete is poured.
 - b. Pole type construction – after holes are dug but *before* any poles or concrete.
 - c. Piers – after holes are augured, rebar in place but before any concrete.
 - c. Concrete pads – when excavation is complete, soil is compacted, forms and reinforcement in place but *before* any concrete is poured.
 2. Final Wall – when wall is complete, parge coat and waterproofing applied, 6” of #2 stone applied over the 4” drain tile and insulation if required but *before* any back filling.
 3. Rough Framing – after all rough plumbing (prep for testing), framing, HVAC completed and the rough electric inspected by an approved inspection agency but *before* any insulation installed.
 4. Pre-lathe – after insulation installed but *before* any dry wall, plaster or other wall coverings are applied.
 5. Final - all construction must be completed as per the approved plans and specifications, favorable reports received from all applicable agencies involved with the project and all testing completed and reports received.

All smoke detection and CO alarms must be installed as required by Section R314 and R315.

Certificate of Occupancy must be issued before any building or part thereof is occupied.

I (please print) _____ agree upon applying for a permit that I will call 24hrs in advance for each required inspection noted herein. I understand that failure to call for the required inspections could result in a “Stop Work Order” being issued, a \$100.00 fee imposed for each missed inspection along with assuming any additional expenses to show code compliance. A \$50.00 fee will be imposed for scheduling an inspection, and access to perform such inspection cannot be made.

Instructions:

1. This application must be completely filled in by typewriter or ink and submitted in duplicate to the Building Department.
2. A plot plan showing location of lot and of buildings on premises, relationship to adjoining premises or public streets or areas, and giving a detailed description of layout of property must be submitted with this application.
3. This application must be accompanied by two sets of construction drawings showing proposed construction along with two sets of specifications. Plans and specifications shall describe the nature of work to be performed, the materials and equipment to be used and installed and details of structural, mechanical, electrical, heating and plumbing installations.
4. The work covered in this application shall not commence prior to issuance of Building Permit.
5. Upon approval, the Building Department shall issue a building permit to the applicant, with approved duplicate set of plans and specifications. Such permit and specifications shall be kept on premises available for inspection throughout the work progress.
6. No building shall be occupied or used in whole or in part for any purpose, until a certificate of occupancy has been issued for such use by the Building Department.
7. Upon permit issuance, all work is to be completed within 12 months or a permit renewal must be obtained.

Application is hereby made to the Building Department for the issuance of a Building Permit pursuant to The New York State Uniform Fire Prevention and Building Code for the construction of buildings, additions, alterations, or for removal or demolition, as herein described. The applicant agrees to comply with all applicable laws, ordinances and regulations.
